

<b>Sprint 2 Retrospective</b> <b>11/17/2022 - 11/27/2022</b>		
What we did well	What we didn't do well	Action plan
Incorporating Andrew into the team Catching him up to speed Finding work for him to do that integrates him and familiarizes him with the project	Missed some daily SCRUM meetings due to Thanksgiving break	Get BRD done as soon as possible for final submission date
Actually doing SCRUM stuff hopefully right this time	Didn't follow through on predicted hours as much	It's grind time for next sprint
Logging hours worked per day	There's lots of work left to be done on BRD still	BRD and Project Plan still need to be finished
Taking a break and enjoying Thanksgiving		Milestone 3 deliverables
Allocate tasks to team members more predictably rather than spontaneously		
<b>Sprint 3 Retrospective</b> <b>11/28/2022 - 12/14/2022</b>		
What we did well	What we didn't do well	Action plan
Allocate work	Work a lot at night	Work more throughout the day
Meet up and communicate	Get DAR reports fast enough	Appreciate deadlines better
Get things done when they needed to	BDR and Project Plan were finished nearly last minute	We can mostly trim down predicted hours
